

This is my way! Seamless mobility.

7:45 a.m.

My B-Class is being serviced today. **Mercedes assist me** has ensured that the whole process will run smoothly from the beginning. The dealership has reminded me of my appointment – just one more thing I don't have to worry about remembering.

10:15 a.m.

An employee from the dealership picks up the car at my office. I'll still be able to get to my meeting with customers without any problems, though.

10:30 a.m.

The smart that I booked with **car2go** is already waiting for me a block away. As a registered user, I can simply get in and go. The best thing about all this is that I can use a smartphone app to open the blue-and-white smart fortwo that's waiting for me.

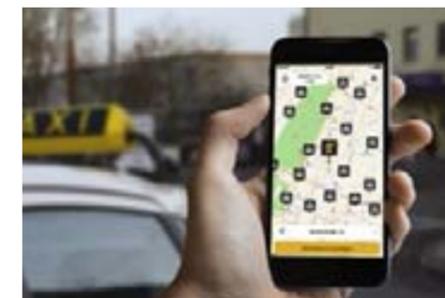

11:10 a.m.

I park my **car2go** at a charging station right near my business partner's office. That's it – I'm done! The station will recharge the battery for the next user – without me having to pay anything. I walk the rest of the way, enjoy the sunshine and call a friend I'd like to meet this evening.

5:00 p.m.

After the meeting, I decide on the spur of the moment to take a taxi so that I can look through some documents again in peace and quiet. I use the **moovel** smartphone app to order a car from **mytaxi**, and I can also pay for the trip with my phone afterwards.

5:45 p.m.

I arrive back at my office and shortly afterwards someone from the dealership shows up to bring my car back. Now I can leave the office in my freshly serviced **B-Class**.

6:15 p.m.

I get into the car, plug in my iPhone, put on my favorite songs and take off! **COMAND online** tells me there's a minor traffic jam at the train station, so I'm able to avoid it.

7:30 p.m.

My **B-Class** shows me the way to a parking space near a popular shopping area. I'm meeting a friend and we're going for a stroll.
